Summary

Frontend engineer with 6+ years of experience in JavaScript, React.js, Next.js, Redux, and DOM manipulation. Seeking the role of **Sr Engineer - UI** to apply deep expertise in frontend development and scalable UI systems. Proven ability to translate business requirements into technical solutions using Agile practices and modern frontend pipelines (Webpack, Babel, NPM). Visit: shubhambhagat.dev

Skills

Languages: JavaScript, TypeScript, HTML, CSS, EcmaScript 6+
Frameworks: React.js, Next.js, Redux
Build Tools: Webpack, Babel, NPM
APIs: RESTful APIs
Practices: DOM Manipulation, Front-end Development, Agile, CI/CD, Functional Programming, Accessibility (WCAG)
Soft Skills: Accountability, Problem Solving, Team Leadership, Communication, Mentorship, Visionary Thinking

Experience

Senior Frontend Engineer   *May 2023 – Jul 2025*
Project44

- Developed React.js-based micro frontends using DOM manipulation, Redux for state management, and SSR via Next.js.
- Reduced onboarding time by 50% with metadata-driven portal architecture.
- Built scalable data visualization dashboards with RESTful API integration.
- Used Webpack, Babel, and NPM to standardize builds across teams.
- Collaborated in autonomous agile teams; integrated Cursor CLI to automate Figma-to-code workflows.
- Worked with cross-functional pods to ensure native app UI consistency and scalable performance.

Senior Frontend Engineer   *May 2022 – Apr 2023*
Livspace

- Migrated monolithic frontend to modular architecture using React.js, Redux, and TypeScript.
- Improved Lighthouse scores by 30% via code-splitting and build optimization.
- Maintained shared UI libraries and promoted a11y standards via WCAG audits.
- Utilized Cypress and React Testing Library for E2E and unit test coverage.
- Translated business requirements into technical deliverables across B2C features.

Frontend Engineer   *Aug 2019 – May 2022*
Saama Tech / Linescripts

- Built dashboard interfaces with React.js and GraphQL for internal data science teams.
- Integrated Google Maps API and geotagging flows to enhance location tracking modules.
- Designed reusable components and maintained layouts across agile product cycles.

- Participated in UI engineering cycles for data-heavy healthcare products.

Education

B.E. in Computer Science *Jun 2019*
International Institute of Information Technology, Pune

Certifications

Frontend Developer Career Path – Codecademy *Completed 2023*
Modern JavaScript – Scrimba *Completed 2023*
Advanced React and Redux – Udemy *Completed 2024*
